

Arima

SWEET WHITE WINE

Only in exceptional years does nature let us wait until November to harvest our selected Hondarrabi Zerratia vines.

After fermenting in new French-oak barrels and maturing in the bottle, this sweet grape juice becomes **Arima, pure Biscay essence.**

 **D.O.:** Bizkaiko Txakolina

 **Vineyard surface:** 1,9 hectares

 **Average production:** 1.400 kg / hectare

 **Varieties:** 100% Hondarrabi Zerratia

 **Planting date:** February 2004

 **Density:** 3.300 strains / hectare

TASTING NOTE

It has an elegant, bright and spotless presence. **It leaves a good glycerine presence on the glass, with slow tear detachment. Its colour is bright yellow.** It has a high aromatic density. Noble aromas blend with very ripe fruit and caramelized sweet spice, cinnamon. On a second level, there are touches of honey wrapped in citrus and essences of daffodil and acacia flower. Silky and embracing. **A greedy, fruity and herbal sensation which releases a spectacular acidity that ensures a superb future evolution full of crystallized fruit and honey.**
